Special Registration Request Form

CIS 4397 - Independent Research in Computer Science

Students undertake research under the supervision of a CIS faculty member. This course can be used to fulfill the capstone requirement. Students are strongly urged to take an independent study with their research professor prior to enrolling in this course.

- Students must apply by 11/15 for Spring, 3/15 for Summer, and 4/15 for Fall
- Research must be approved by the chair of the Computer Science Undergraduate Program

Minimum requirements include:

- 3.0 GPA overall
- 3.3 GPA in the major
- Readiness for CIS 4398 (CIS 3296 and CIS 3223 completed)

Student Name: ___________________________ TU Id: ___________________________
Major: ___________________________ E-Mail: ___________________________
4397 Semester: ___________________________ Supervising Professor: ___________________________

3296 Semester: ___________________________ 4282 Semester: ___________________________
3223 Semester: ___________________________ Graduation Semester: ___________________________

The student must attach to this form a written plan of goals and deliverables for this course. The supervising professor must sign this form to indicate approval of this plan. If the student has not done an independent study with the research professor, the professor must attach an explanation of why the student is ready to do this research. Submit the completed form to the CIS Administrative Coordinator (cbryant@temple.edu, room 313 SERC), who will verify requirements have been met, obtain approval, and (if approved) register the student for the course.
