CONTACT INFORMATION Department of Computer and Information Sciences mobile: +1 980-229-3383
College of Science and Technology e-mail: amitangshu.pal@temple.edu
Temple University Citizen: Indian (currently on H1B visa)
Philadelphia, PA 19122-1801, USA web: <https://cis.temple.edu/~apal/>

RESEARCH INTERESTS **Energy Harvesting Wireless Sensor Networks:** Energy-aware routing, power control, dynamic channel selection, dynamic sampling rate adaptation, localization, experimental testbed development and validation.

IoT Based Sensing and Communication: Building cyber-physical systems for smart cities, sensing and communication in food supply chain, policy management, conflict detection and resolution in large-scale IoT systems.

Disaster Management Networks: Reliable sensing and communications, smartphone based ad-hoc networks, energy-aware forwarding, data gathering and analytics.

Wireless-Optical Access Networks: Network architecture planning and setup, joint routing and channel selection schemes, quality of service, power efficiency.

Multihop Wireless Networks: Routing, medium access control, cross-layer optimizations, modeling and performance evaluation.

EDUCATION **The University of North Carolina at Charlotte**, Charlotte, NC, USA
Ph.D., Electrical and Computer Engineering **August 2008 - December 2013**

- Dissertation title: *Dynamic Routing with Cross-Layer Adaptations for Multi-hop Wireless Networks*
- Advisor: Dr. Asis Nasipuri
- CGPA 4.0/4.0

The University of North Carolina at Charlotte, Charlotte, NC, USA
Master of Science, Electrical and Computer Engineering **August 2008 - May 2013**

- Advisor: Dr. Asis Nasipuri
- CGPA 4.0/4.0

Jadavpur University, Kolkata, West Bengal, India
B.E., Computer Science and Engineering **August 2004 - May 2008**

- Senior project title: *Fault Detection and Localization Scheme for Multiple Failures in Optical Networks*
- Advisor: Dr. Amitava Mukherjee, Dr. Mrinal Kanti Naskar, Dr. Mita Nasipuri
- CGPA 8.61/10 (80.91%)

PROFESSIONAL EXPERIENCE **Department of Computer and Information Sciences, Temple University**, Philadelphia, PA, USA
Teaching Assistant Professor **July 2019 - present**

- Computer Systems and Low-Level Programming (Fall 2019, Spring 2020, Fall 2020, Spring 2021)
- Introduction to Problem solving and Programming in Python (Summer 2020, Fall 2020, Spring 2021)
- Software Design (Fall 2019)

Department of Computer and Information Sciences, Temple University, Philadelphia, PA, USA
Teaching Instructor **July 2017 - June 2019**

- Mathematical Concepts in Computing I (Fall 2017, Fall 2018, Spring 2019)
- Computer Systems and Low-Level Programming (Fall 2017, Spring 2018)
- Projects in Computer Science (Spring 2018, Spring 2019)

Department of Computer and Information Sciences, Temple University, Philadelphia, PA, USA

Postdoctoral Researcher

July 2014 - June 2017

- Supervisors: Dr. Krishna Kant
- Worked on a magnetic induction based communication framework for food spoilage detection.
- Worked on the distribution logistics of Fresh Food Physical Internet.
- Explored different network adaptations on water flow driven sensor networks for leakage and contamination monitoring.
- Developed a reconfigurable all-optical Data Center Networking architecture.
- Proposed a Smartphone based disaster monitoring scheme in evolving disaster scenarios.
- Developed a neighborhood aware caching and Interest dissemination scheme in Content Centric Networks.
- Assisted in writing successful NSF grants CNS-1542839, CNS-1744187 and CNS-1844944.

Department of Electrical and Computer Engineering, The University of North Carolina at Charlotte, Charlotte, NC, USA

Lecturer

August 2013 - June 2014

- Data Communications and Networking (Spring 2014)
- Network Theory II (Fall 2013, Spring 2014)
- Signals and Systems (Fall 2013)

Wireless Communications and Networking Research Lab, ECE, The University of North Carolina at Charlotte, Charlotte, NC, USA

Research Assistant

August, 2011 - July 2013

- Developed a solar-powered wireless sensor network testbed, named EPIC-RoofNet.
- Developed a power control and routing scheme for rechargeable wireless sensor networks.
- Developed an analytical model of network lifetime in an asynchronous wireless sensor network with multiple channels and power control.
- Developed a RSSI based localization scheme for wireless sensor networks in obstructed environments.
- Developed a multi-channel routing scheme for wireless sensor networks with an objective of prolonging the network lifetime.
- Developed an analytical model for performance analysis of IEEE 802.11 Distributed Coordination Function in Radio-over-Fiber wireless LANs.
- Explored the effects of optical network unit placement in multi-channel wireless-optical access networks.
- Developed a joint routing, channel assignment and gateway selection scheme for wireless optical broadband access networks.

Department of Electrical and Computer Engineering, The University of North Carolina at Charlotte, Charlotte, NC, USA

Teaching Assistant

August 2008 – May 2012

- Computer Arithmetic (Fall 2008)
- Network Theory I (Spring 2009, Fall 2009, Spring 2010)
- Data Communications and Networking (Fall 2010, Spring 2011, Fall 2011)
- Wireless Sensor Networks (Spring 2012)

Toyota InfoTechnology Center, Mountain View, CA, USA

Research Intern

July 2012 - August 2012

- Supervisors: Dr. Ryuji Wakikawa and Dr. Roger Melen
- Developed different schemes for secured Internet connection from a vehicle using the wireless access of the charging station.
- Worked on a mobile IPv6 testbed to implement the schemes.

Advanced Digital and Embedded Systems Lab, Jadavpur University, Kolkata, West Bengal, India

Project Student

August, 2006 -May, 2008

- Developed a fault detection and localization scheme for optical networks.

HONOURS AND AWARDS

Recipient of **Outstanding Graduate Teaching Assistant Award 2012-2013**, Electrical and Computer Engineering, The University of North Carolina at Charlotte, Charlotte, NC, USA.

Recipient of **Graduate Assistant Support Plan (GASP) Award**, Electrical and Computer Engineering, The University of North Carolina at Charlotte, Charlotte, NC, USA, 2008 - 2013.
