

```
public class Msg {
    public static void main(String []args) {
        String s1 = "warning";
        String s2 = "light";
        String s3 = "bugle";

        System.out.println(s2 +
            s1.substring(3) +
            s3.substring(0, 3));
    }
}
```
