

## Assignment 1b (Alternative Assignment): Freestyle

### Overview

Create any image you want to, using SimpleGUI --- be creative, be artistic! To make it a bit more ambitious there are some conditions:

- your image must contain at least the following drawables (picture elements):
  - FilledBox
  - FilledEllipse
  - Image (e.g. as a background image)
  - Line
- There must be at least one element that makes use of transparency

Please read the SimpleGUI manual (on the SimpleGUI website, under downloads) how to access these elements and their parameters.

Bonus Points:

- One bonus point if your image is animated (SimpleGUI manual helps here, too)
- One bonus point if it makes use of Mouse-input (yes, the manual will help)

This assignment is an alternative to the Pixelization assignment. I am aware that this assignment can be much easier --- however, it's on you to make something out of it!
